# YOUR FREEDOM IS OUR PHILOSOPHY

With boundless passion, we at KNAUS have been creating unforgettable holiday moments since 1960. Backed by our experience and the courage to blaze new trails, we combine the familiar with the new. For our production, we rely on Lower Bavarian craftsmanship, and when developing new vehicles, we employ cutting-edge design and production technologies. This combination of proven principles and innovative ideas makes us one of the industry's most successful brands. **And the #Number 1 for our customers.**

## KEY MOTORHOMES

Notes on original KNAUS components and further online information can be found with the following symbols:

# FROM IDEA TO KNAUS

Turning a good idea into a really good vehicle involves several steps. We take each one with our sights set firmly on the goal of designing vehicles with which you can spend the best time of your life.

## 1. Design

Who is our target group for our new motorhome? We define the vehicle set-up and equipment that would best suit your needs. We develop various layouts and craft the future design.

### HOW WE BECAME WHO WE ARE

From a caravan production plant in Lower Franconia to one of the leading brands in the industry: In 1961, company founder Helmut Knaus sets new benchmarks with his first caravan, the legendary "Schwalbennest". From that point on, the logo depicting a pair of swallows is inseparably linked with the world's most wonderful holiday pursuit.

**1960** Helmut Knaus founds KNAUS in the Franconian town of Marktbreit.

**1961** The KNAUS Schwalbennest is introduced – compact, comfortable and light.

**1962** An icon is born. The KNAUS SÜDWIND makes its début.

**1970** A new era begins: Our main factory in Jandelsbrunn is established.

**1973** In recognition of his courage and pioneering spirit, Helmut Knaus is awarded the Federal Cross of Merit.

**1988** The TRAVELLER becomes the first KNAUS motorhome and Promobil magazine's "Motorhome of the Year".

**1996** With the Travel-Liner, we now have integrated motorhomes in our range.

**2004** The SUN TI with its large panoramic roof captures the hearts of holidaymakers everywhere.

**2005** A genuine success story begins. Finally, there is a camper van in KNAUS quality.

**2015** We celebrate our return to the liner segment in impressive style with the SUN I.

**2016** We revolutionise an entire industry. THE MISSION is the road to the future.

**2017** The CUV generation begins. The BOXDRIVE built on the VW Crafter is the first caravanning utility vehicle, a completely new vehicle category.

**2018** The VAN TI PLUS has what belongs together: KNAUS has built the first motorhome on MAN TGE.

**2019** The LIVE I positions itself between semi-integrated motorhomes with a lifting bed and fully integrated motorhomes, becoming the face of a new class.

## 3. Production

All tests passed? Then we can start with series production now. Our main production and development site is located in Jandelsbrunn in Lower Bavaria. In Mottgers in Hesse and in Nagyoroszi in Hungary there are two other ultra-modern production sites. To ensure optimum conditions, we continuously invest in our sites and above all in our more than 2,900 employees throughout the group many of whom have been with us for 30 years and more.

## 2. Prototype and testing phase

The idea takes on perceptible forms for the first time. With the construction of the prototype, we can put our ideas to the test in reality and analyse them precisely. In order to meet our quality standards, the prototype must pass numerous tests.

## 4. Satisfied customers

Whether at your local dealer or directly from the factory: we like you to feel comfortable in your new vehicle from the very first moment. That's why our experts give you a comprehensive on-site instruction when you pick up your vehicle from the factory.

## 5. The mein.KNAUS family

Take advantage of the attractive benefits of the mein.KNAUS customer club! With your free membership you will receive the exclusive my.KNAUS card which guarantees you numerous immediate discounts with over 7,000 partners as well as access to the trade fair customer area. You can find more information on page 100 or register directly at [mein.knaus.com](http://mein.knaus.com)

*Club members receive exclusive invitations to our KNAUS meetings as well as the exciting customer magazine INSIDE*

# THE FUTURE STARTS NOW

THE MISSION is the quest, the obstacles, the courage and the aim to revolutionize the future of the leisure vehicle industry. With the TRAVELINO we have taken a big step into the future. It has shown us what is possible in terms of lightness, flexibility and sustainability and has paved the way for the new development of the DESEO. Our innovative technologies are to be consistently further developed until we have revolutionized each of our model series and can proudly say so: MISSION fulfilled.

## THE MISSION

**Our mission: A revolution.** For the caravan of the future, we are taking a completely new path. The direction is clear: Consistent lightweight construction for a 4-passenger caravan with an unladen weight of 750 kilograms. There has never been anything like this before. We have analysed, tested, developed and researched. Until the symbiosis of revolutionary body technology and pioneering materials has enabled us to reach the first milestone: the series production of the KNAUS TRAVELINO.

## Chassis technology that is light as a feather.

With 35 % less weight than a comparable conventional chassis, our PowerAxle takes a significant step towards hybrid and e-mobility caravanning. As a consistent further development, the new VARIO X chassis in the SPORT&FUN BLACK SELECTION marks the next step in chassis development. Thanks to its bionic shape, it combines uncompromising lightweight construction with outstanding stability and load capacity with optimum handling.

## POWERAXLE

## FIBREFRAME

### Patented frame technology.

We have developed a self-supporting frame with which furniture is truly just furniture and no longer stabilising elements. That opens entirely new possibilities and unimagined flexibility in the layout and room design.

## LIGHTWEIGHT MATERIALS

**Unique lightweight.** The total is more than just a sum of its parts. This applies in particular to our lightweight construction caravans. It was only through the skilful combination of all our revolutionary technologies and the courage to break new ground that we were able to realise our vision of the efficient caravan of the future: this is UltraLight!

## CONNECTION TECHNOLOGY

### Ultrasonic speed – even on the inside.

With the RevolutionCube technology\*, we employ EPP, thereby using an entirely new material. Extremely lightweight and durable. Moreover, using ultrasonic technology, so-called KALTSCHMELZ® dowels are permanently connected with the lightweight construction carrying material.

# OPTIMUM TECHNOLOGY FOR THE MOST BEAUTIFUL TIME OF THE YEAR

Loading option for skiers

## 1. DURABLE TVT STRUCTURE<sup>3</sup>

Functional sandwich construction made of aluminium and insulating materials (XPS or EPS) with polyurethane plastic reinforcements and fully bonded structure make the whole structure of the vehicle more stable, more resistant to decay, and more durable. This is what Top Value Technology - in short: TVT represents.

## 2. ROBUST HIGH-STRENGTH GRP ROOF<sup>1</sup>

Not all GRP is the same. Resistance depends on how high the glass content is. For maximum protection against hailstorms, we decided on the high-strength variant with a fibreglass content that is almost three times greater than that of standard GRP.

## 3. EXCELLENT GRP UNDERBODY<sup>2</sup>

We install a thick, tough GRP layer in order to best protect the underbody against weather, impacts from stones, or similar.

## 4. INSULATING DOUBLE FLOOR<sup>2</sup>

Our double floor ensures cosy warmth due to double-layer insulation even in the coldest outside temperatures. Water and heating pipes are installed such that they are protected against frost and damage.

## 5. ALKO TANDEM DEEP FRAME CHASSIS<sup>2</sup>

The low centre of gravity and the particularly torsion-resistant chassis ensure exceptional driving and comfort features as well as maximum safety when driving. An additional benefit is that the low chassis height provides more room to stand and more loading volume even with compact dimensions.

## 6. LEAK-PROOFNESS GUARANTEE<sup>1</sup>

For all our leisure vehicles, we offer you a 10-year leak-proofness guarantee on the body manufactured by us as well as a 24-month guarantee from your KNAUS partner within the framework of our guarantee conditions valid at the time of vehicle delivery.

<sup>1</sup>Across all series <sup>2</sup>Dependent on model <sup>3</sup>Optional

**Exclusive to SUN I: Our especially high-quality and durable TVT+ structure**

What is one of the most important aspects in designing a motorhome? That, regardless of the weather, you can have fun on holiday with it. That should also last many, many years. For this reason, we developed aluminium-XPS-aluminium structures and christened it Top Value Technology+.

**1. DURABLE TVT+ STRUCTURE<sup>2</sup>**

This is bodywork technology at a purely luxurious level: An outer shell made of highly-resistant aluminium sheets, quality XPS insulation between them, and aluminium sheet on the inside with a textile wall covering. This double-wall structure increases the torsion resistance of the structure, and therefore ensures maximum durability. The aluminium sheet on the inside ideally collects and dissipates the heat in your SUN I, providing a uniquely pleasing atmosphere. The TVT+ structure also provides benefits regarding safety. Despite the GRP roof, the aluminium interior wall creates a Faraday cage that provides optimal protection even in heavy storms.

**2. EXCELLENT INSULATION EFFECT<sup>2</sup>**

The aluminium and XPS combination is the best that can be used for the outer shell of a motorhome. It is therefore no surprise that the side wall is comparable to a typical house wall with regard to its insulating effect. Your benefit: Lower gas consumption in winter and ideal protection from heat in summer.

**3. TEXTILE WALL COVERING<sup>2</sup>**

The textile wall covering does not just create a homely atmosphere with its pleasant and soft surface, but it also improves the acoustics and heat storage.

**4. OPTIMAL PROTECTION AGAINST DECAY<sup>2</sup>**

Coated aluminium and hydrophobic XPS insulation together make a side wall that is resistant to decay, and it also ensures a long vehicle life due to age-resistant materials and high torsion resistance.

<sup>1</sup>Across all series  
<sup>2</sup>Dependent on model <sup>3</sup>Optional

## A thoroughly well-designed concept for your holiday enjoyment

An excellent motorhome is the combination of innumerable practical and high-quality details. We have summarised a few points here for you so that you can see what exactly can be found in our integrated motorhomes.

### 1. SEWER VALVE CAMERA<sup>3</sup> & ELECTR. DRAIN VALVE<sup>1</sup>

The SUN I 3 axes can be optionally equipped with a waste water valve camera to simplify the positioning of the vehicle over the drain. The standard electric drain valve can be conveniently operated from the cab.

### 2. PRACTICAL FRONT BLIND<sup>3</sup>

Whether a pleated blind or an insulating shutter. Whether electric or manual. Thanks to the practical front blind, curious glances, cold weather, and the glare of the sun all remain outside if required.

### 3. AIR DUCTS DRIVER'S CAB HEATING<sup>1</sup>

The front section of the dashboard is heated in a targeted manner in all integrated KNAUS vehicles. This does not just prevent misted windows, but the insulated porch area also works in a similar manner to an area heating system. This means that the same pleasant atmosphere in the vehicle also applies to the driver's cab.

### 4. EFFECTIVE VEHICLE INSULATION<sup>1</sup>

Optimal comfort regarding noise when driving, ideal insulation when still. We use a special high-tech material in areas that are particularly heavily used, such as the wheelhouse and the engine compartment: Expanded propylene. This material has exceptional noise and heat insulation properties as well as being extremely resistant against mechanical effects.

### 5. PRACTICAL DOUBLE FLOOR<sup>2</sup>

Alongside the benefits with regard to insulation, the double floor has a practical advantage too. It also serves as a loading option for bulky objects such as skis or camping furniture, as well as several storage compartments for smaller utensils. A particular highlight: The storage space beneath the bench is easily accessible from both the inside and the outside.

### 6. COMFORTABLE GAS BOTTLE PULL-OUT<sup>2,3</sup>

For a particularly easy access and even faster exchange of the gas bottles, we install a special pullout. This pullout is suitable for holding two 11-kg gas bottles and can be easily pulled out and secured on the inside.

### 7. QUALITY VEHICLE GRAPHICS<sup>1</sup>

Timeless design means nothing if the vehicle starts looking old after only a few years. For this reason we only use quality products from renowned suppliers, such as 3M, Avery, and Oracal.

<sup>1</sup>Across all series <sup>2</sup>Dependent on model <sup>3</sup>Optional

The exclusive 17" aluminium rims are full of true KNAUS DNA, whether black-gloss front front polished...

... or titanic metallic-painted.

## Travel without worries, arrive safely, relax and enjoy

When furnishing our motorhomes, we place great store on a high degree of safety and maximum ease of use. From specially developed windscreen wipers to particularly safe body doors to practical single-handed operation.

### 1. BLIND SPOT WARNER<sup>3</sup>

Our Blind Spot Warner helps you keep track of side and rear traffic. The system gives you the necessary all-round view not only while driving but also when maneuvering. Pure safety!

### 2. HIGHEST SAFETY<sup>1,2,3</sup>

The modern internal key system<sup>1</sup> slides smoothly into the lock and, due to its straight surface, it does not easily get entangled in clothing. So that you don't have to individually unlock and lock each and every flap, we optionally install a convenient central locking system<sup>2,3</sup> for the flaps and doors of the vehicle body. Everything is thereby secured at the touch of a button. The optional alarm system ensures even more protection.

### 3. BEST PERSPECTIVES<sup>1</sup>

Our large panorama windcreens in combination with the perfectly adjustable GRAMMER seats and the large side windows grant the greatest possible view looking upwards, downwards, and to the sides. We do not install any universal solutions with regard to our windscreen wipers, but use systems that are ideally adapted to the curvature of the windscreen to provide optimal performance. And finally, our windscreen heater effectively prevents misted windows. Put in short: more active safety for you by having an ideal view and optimal visibility.

### 4. METAL LOCKS IN BODY DOOR<sup>1</sup>

So you can sleep soundly at night, we install solid high-tensile steel closing elements in our body doors so that you and your loved ones can enjoy a relaxed holiday.

### 5. DOORS WITH SINGLE-HANDED OPERATION<sup>1</sup>

Locked several times over, yet can still be operated with just one hand. We do not use fiddly twist-action locks, but aim to provide maximum convenience instead. In addition, the double seal ensures that driving rain and strong winds do not have an effect on your holiday experience.

### 6. VELOCATE GPS TRACKER<sup>3</sup>

If the worst comes to the worst, Velocate's optional GPS tracking system provides you with optimal protection. The tracking system requires very little power and can transmit for up to three months independently. Thanks to app control, it is particularly easy to operate. AGPS ensures particularly fast location determination and a sensitive GPS antenna provides the best reception for tracking even in difficult environments.

<sup>1</sup>Across all series <sup>2</sup>Dependent on model <sup>3</sup>Optional

The coming-home lighting of the KNAUS EXCLUSIVE cabin door is a real highlight

The multifunctional KNAUS bag is perfectly suited for a quick shopping trip or can be used as a waste bin

## That's how nice it is to start your holiday with KNAUS motorhomes

With our five different motorhome cabin doors, the possibilities are endless. In order to keep unwanted downpours and other forms of inclement weather outside, all KNAUS cabin doors are equipped with a weather-resistant double seal. The variants KOMFORT, PREMIUM and EXKLUSIV are also equipped with an automotive, noiseless locking system and, depending on the layout, also available in an oversized version.

The extra-wide 700 mm offer even more comfort when entering the vehicle

## Sit down on one of our comfortable luxury GRAMMER seats

A good trip should include a relaxed arrival. So that – even after driving hundreds of kilometres – you arrive refreshed and feeling good, we install the excellent GRAMMER seats either as a standard feature or an optional extra in our fully integrated vehicles, depending on the model. The optional SUPER LUXURY-variant ensures even more comfort.

Due to an active ventilation and numerous adjustment possibilities for optimal seating ergonomics, you can sit comfortably and in a healthy position for many hours

## Our filter for a clear holiday pleasure

**NEW**

As beautiful as the destination may be, the view into the fresh water tank can quickly spoil happiness. Unfortunately, clean water is not taken for granted everywhere. It's all the more important that you have the possibility to supply yourself with purified water. The high-performance filter system from our partner BWT offers the best conditions for this.

*Contaminated water can not only spoil your taste but also endanger your health*

*The BWT water filter works absolutely chemically free*

*Boiling and showering with hygienically clean water is one of KNAUS' standards for carefree holiday enjoyment*

### BWT BESTCAMP WATER FILTER

The handy water filter leaves nothing to be desired in terms of hygiene thanks to its ultrafiltration membrane. Microorganisms are effectively removed from the raw water. This allows hygienically perfect water to be produced without any chemicals whatsoever. The water filter can be installed in all our leisure vehicles and easily connected.

**Top-class technology:** thanks to the highly efficient hollow fibre membrane, the water filter achieves an excellent retention rate for microorganisms > 99.9999% (log6). The large membrane surface ensures a high throughput and thanks to the manufacturing from completely food safe materials no unwanted substances get into the water.

**Practical application:** an 8 mm "John Guest" plug connection ensures particularly simple, tool-free installation. This also ensures that the water supply is guaranteed even when no replacement filter is available.

**Healthy enjoyment:** the water filter system minimises the risk of germs in the water. Especially in high-risk regions, the filter proves to be a useful tool for prevention and actively contributes to the protection of your health.

#### This is how easy it is to install & change the filter

1. We only install the filter when the vehicle is handed over so that you can use it for the full period of up to 6 months.

2. Installation is particularly easy thanks to the plug connection and clear markings.

3. The filter can be kept for up to 6 months from the day of installation. A special button shows the current status.

4. If no replacement filter is available, the intermediate piece guarantees the further water supply.

Countless functions  
intuitive operation

## Discover KNAUS smart CI\* The entire technology in your hands

With KNAUS smart CI, the central control of the technical units is particularly easy and user-friendly. Our control panel with 4.3-inch capacitive touch screen is the most convenient and easiest way to centrally control all functions of the vehicle. Like a smartphone, it can be controlled intuitively by touching the screen.

The Home button directly leads you back to the main menu

Extended functions of the system can be found here

Practical main switch

1

2

4

5

3

### SOPHISTICATED TECHNOLOGY

The KNAUS smartCI system has been used since its introduction in the 2014 SUN TI and is being constantly re-developed and improved. From the beginning, two things were particularly important to us: the system should be simple to maintain and repair, and on the other items such as light switches or the control panel for the heating should still function even if the smart CI system fails.

- A. Control panel
- B. Digitally networkable electric junction box
- C. Lighting control modules with 8 digital outlets

### 1. STARTSCREEN OVERVIEW

All important vehicle information can be seen at a glance. Touching the individual areas takes you to a more detailed range of adjustment options.

### 2. MULTI-ZONE CLIMATE CONTROL UNIT

Several climate control zones can be controlled depending on the range of incorporated features. Select the desired temperature and the automatic system monitors the heating or the air-conditioning depending on the situation.

### 3. FILL DISPLAY OF WATER TANK FILLINGS

You can see at a glance here what the fill levels of the tanks in the vehicle really are. In addition, the device provides an acoustic signal when filling the fresh water tank is needed.

### 4. LIGHT CONTROL IN THE ENTIRE VEHICLE

Centrally controlling the main living area light, the bathroom light or simultaneously the ambient lighting in the bedroom? Not a problem at all. The control panel can be used to ensure that you have the perfect lighting throughout your KNAUS.

### 5. DETAILED BATTERY MONITORING

Monitor the charge status of your batteries on board. Further information can be accessed in connection with a battery sensor (as standard with a body battery).

### 6. PRACTICAL FRONT BLIND

The settings menu can be used for the optional front blind to select from predefined options and then select the desired position at the touch of a button.

Also, that is not remotely all functions that are covered, you can also manually monitor the heating and air-conditioning, activate the ALDE booster in the predefined vehicle areas or check the time, date, or interior and external temperatures.

\* Dependent on model

## An interior you want to tell everyone about: our motorhomes offer impressive levels of comfort and convenience

One challenge is to transfer an apartment with bathroom, bedroom, living area, and kitchen down into an area that is fit for the road. The other includes intelligent design solutions, such as dimmable atmospheric lighting that can turn a living area into your favourite space.

### 1. QUALITY MATERIALS<sup>1</sup>

Quality materials are the basis of maximum durability. For this reason, we for example install solid cast-iron grates, scratch-resistant stainless steel wash basins, quality metal handles, stylish acrylic glass compartments and much more.

### 2. HEAD-UP DISPLAY & NAVIGATION SYSTEM WITH CAMPING SOFTWARE<sup>3</sup>

The new head-up display uses a transparent screen to project all key data, such as navigation and speed as well as traffic-sign recognition information, into the driver's field of vision. Drivers don't have to take their eyes off the road unnecessarily and can focus better on what is going on around them. For an even more stress-free and entertaining journey, the Pioneer navigation system offers everything you need for short and long trips. With intuitive multi-touch control, maps of 44 countries in Europe, a DAB+ receiver, Apple CarPlay, Android Auto, Parrot Bluetooth hands-free functionality and optimum sound thanks to the on-board 13-band equalizer, it offers everything you could expect these days of a multimedia navigation system. It also comes with 3 years of free map updates.

### 3. COMFORTABLE DRIVER'S CABIN DESIGN<sup>1,2,3</sup>

There is also a spacious storage compartment<sup>2</sup> with well thought-out shelves located next to the passenger seat, so that your co-driver has everything which might be needed while driving at hand. Smartphone, tissues, sunglasses – everything is easily accessible and well stowed. And when you finally arrive and want a little privacy or sun protection, the entire cab can be shielded from the outside thanks to a practical darkening<sup>1</sup>. As an option, an electric drive<sup>2,3</sup> ensures lots of comfort.

### 4. MAGNETIC CATCH<sup>2</sup>

The quality magnetic catch means that the door can be used for various purposes in the open bath, whilst it also closes gently almost without making a noise.

<sup>1</sup>Across all series <sup>2</sup>Dependent on model <sup>3</sup>Optional

*For detailed information on sleep comfort in our motorhomes, please start on page 32. For the different types of beds, see page 34 onwards*

## We don't build castles in the sky; instead we build furniture that creates a pleasant atmosphere.

The expectations made of the furniture in our camper vans are very high. They are not just met with pleasing designs and a great deal of storage space. Durability, intelligent construction and technology that impresses for life - those are our measures.

### 1. SOLID ALUMINIUM PROFILES<sup>1</sup>

The furniture plays an important part in ensuring stability of the entire structure. That is why we use highly rigid aluminium profiles with our furniture. These are even more stable than solid timber profiles, and considerably lighter.

### 2. ADJUSTABLE SOFT-CLOSE DOORS<sup>1</sup>

No thumping, no rattling, no reclosing. The soft-close drawers close gently and lock automatically.

### 3. SOLID DOWELLING TECHNOLOGY<sup>1</sup>

Our furniture is joined using elaborate dowelling as standard. This means we achieve great precision in fitting, as well as a considerably more stable structure so that your furniture will still serve you well even after many years.

### 4. SCRATCH-RESISTANT HPL/CPL SURFACES<sup>1</sup>

High pressure laminates are laminates that are specifically used for heavy loads such as in kitchens. The multi-layer construction is produced under extremely high pressure, then sealed with an exceptionally robust surface layer. This makes our work areas and tabletops particularly scratch-resistant.

### 5. STABLE SOFT-CLOSE FULL-EXTENSION SLIDES<sup>1</sup>

We work together with GRASS for our drawers, who otherwise mainly supply their goods to leading furniture manufacturers. You'll notice the difference. Due to the full-extension slide, the drawers slide out so far that they can be filled or emptied easily right to the very back of the drawer. They are guided accurately and close quietly - for the life of the vehicle, and probably also beyond.

<sup>1</sup>Across all series <sup>2</sup>Dependent on model <sup>3</sup>Optional

### ELABORATE INTEGRATED FURNITURE<sup>2</sup>

Air circulation is one of the main prerequisites for a pleasant, healthy room environment.

#### Ceiling cabinets:

They have a particularly sturdy design and are mounted with clearance from the walls. As a result, air can freely circulate behind the cabinets. Condensation is therefore prevented in the cabinets, and your clothing and goods always remain fresh and dry.

#### Kitchen block:

All furniture is ventilated such that the heating can perform its optimal function. Open rear ventilation cut-outs ensure perfect circulation of heated air and provide cosy warmth in the vehicle.

# OUR FEATURES FOR YOUR SLEEPING COMFORT

Sweetly falling asleep and waking up relaxed. We give the highest priority to the design of the sleeping area so that you can always have a relaxed start into an eventful holiday. Our concept comprises high-quality materials, well thought-out details and individualisable solutions.

*Our precisely fitting, optionally available sheets optimise the lying comfort*

*The queen-sized bed in the SUN 1700 LX can be electrically adjusted to ensure optimal room use*

## 1. EXCELLENT EVOPORE HRC MATTRESSES<sup>1</sup>

30% lighter and 40% less loss of hardness than comparable cold foam mattresses. No development of 'hollows' even in one-sided use. The 5-zone EvoPore mattresses (1a) not only pamper you with excellent sleeping comfort, they also impress with exceptional durability. The **High-Resilience-Climate** technology ensures that the mattress remains highly elastic even under demanding climatic conditions. For even more exclusive sleeping comfort, the optional WaterGel layer is up to 50 mm thicker. The breathable foam adapts smoothly to the body.

## 2. HEATABLE MATTRESSES<sup>2,3</sup>

For anyone who tends to shiver quickly, prefers winter holidays or simply likes to get into a comfortably preheated bed, comfort mattresses with an electric heating system are optionally available. Overheating is impossible thanks to the automatic reset function.

## 3. OPTIMUM SLATTED FRAME<sup>1</sup>

The best mattress is only ever as good as its base frame. That is why we install high-quality slatted frames as standard. The distance between the individual slats offers optimum stability and superb ventilation at the same time.

## 4. BED EXTENSION<sup>2,3</sup>

Of course we want to ensure a maximum sleeping space for you. Special detail solutions also contribute to this, such as the variable foot area extension for French beds or the precisely fitting roller slatted frames and mattress liners for single beds.

## 5. ENTRANCE HEIGHT<sup>1</sup>

Our designers pay attention to creating the bed entrance as easy as possible in all layout variants. For the extension of the single beds<sup>3</sup>, a stowable ladder provides safe access. Optionally, some beds can also be installed in a low version<sup>2</sup> (including wardrobe above the foot end).

## 6. STORAGE SPACE, SOCKETS & LIGHTING<sup>2</sup>

Reading a bit more, charging your smartphone overnight and having your glasses ready to hand. For all of that and more, you'll find comfortable dimmable lighting, sophisticated storage options and sockets in the sleeping area.

## 7. TEXTILE ROOM DIVIDERS<sup>1</sup> & WALL COVERING<sup>1</sup>

Especially with several travel companions and larger families, privacy is an important factor for a restful night's sleep. This is ensured by textile room dividers that are easy to pull out and provide pleasant privacy. Thanks to the soft-touch wall panelling, the sleeping area becomes particularly comfortable.

<sup>1</sup>Across all series <sup>2</sup>Depending on the model <sup>3</sup>Optional

## Wonderful diversity: Discover our bed variants

One of the most important questions for relaxed travel: How do you like to feather your nest? Do you prefer large single beds or is sleeping across more your style? Whichever type of bed you choose, you can always look forward to the outstanding KNAUS sleeping comfort.

*The space underneath the beds serves as an additional storage space and thanks to well thought-out drawers, everything can be organised perfectly*

SINGLE BEDS SUN I 900 LEG

### SINGLE BEDS

**Spacious.** In the single beds, you have exceptionally much space to relax and unwind. Due to the optionally available extension, the beds can be expanded to create a large lying surface. Precisely fitting cushions ensure maximum lying comfort and can be easily stowed away when they are not needed.

**Layouts:** VAN I 650 MEG, LIVE I 650 MEG, 700 MEG, SUN I 700 LEG, 900 LEG

### TRANSVERSE BED

**Perfectly constructed for those who like to have a lie-in.** The use of the vehicle's entire width for the sleeping area has two advantages: On the one hand, you will receive a particularly spacious sleeping area. On the other hand, the room is used efficiently and a great feeling of space is created.

**Layouts:** VAN I 550 MD, 600 MG

### QUEEN-SIZED BED

**At the heart of recuperation.** The queen-sized bed is particularly comfortable and can be accessed from either side. There is also a large wardrobe on each side of the bed. The SUN I 700 LX's electric sliding bed actuation system ensures efficient use of space by reducing the size of the bed when it is not in use, thereby making the room bigger.

**Layouts:** SUN I 700 LX, 900 LX

### LIFTING BED

**Lower with ease.** For a second separate sleeping area, the lifting bed can be easily lowered to a particularly low setting. Getting up there is comfortable and even possible without the use of a ladder. When the bed is raised, there is a comfortable standing height.

**Layouts:** VAN I 500 MD, 600 MG, 650 MEG, LIVE I 650 MEG, 700 MEG, SUN I 700 LEG, 700 LX, 900 LEG, 900 LX

### GUEST BED

**Variable and comfortable.** The dinette can be transformed into an extra sleeping place by just a few easy steps. The stable single-column lifting table can be easily lowered for this purpose. Thanks to the precisely fitting upholstery, a stable, comfortable lying surface is created.

**Layouts:** VAN I 550 MD, 600 MG, 650 MEG, LIVE I 650 MEG, 700 MEG, SUN I 700 LEG, 700 LX, 900 LEG, 900 LX

# DELECTABLE, OUR KITCHEN VARIANTS

A kitchen has to withstand a great deal and live up to high standards. Robust counter tops, quality devices as well as well-thought out design with short walking distances and a great deal of storage space are all in every KNAUS kitchen as standard.

CORNER KITCHEN SUN | 900 LEG

## CORNER KITCHEN

**Roomy L-shape.** In the corner kitchen, the galley kitchen is located behind the dinette. This means that the sink and the stove can be placed in the corner. This ensures a lot of work space and even enough room for a refrigerator.

**Layouts:** LIVE | 700 MEG, SUN | 700 LEG, LX, 900 LEG, LX

GALLEY KITCHEN VAN | 650 MEG

## GALLEY KITCHEN

**Extension for enjoying.** Thanks to the separate refrigerator, this can be especially big. The foldable worktop extension offers additional space for preparing your favourite dishes.

**Layouts:** VAN | 600 MG, 650 MEG, LIVE | 650 MEG

COMPACT KITCHEN VAN | 550 MD

## COMPACT KITCHEN

**Efficiently integrated.** The compact kitchen is located between the body door and driver's cabin. Thanks to the extra deep sink and the refrigerator that is integrated into the galley kitchen, each centimetre is optimally used. Especially practical when setting the table: the dinette is located directly across.

**Layouts:** VAN | 550 MD

# EXPERIENCE OUR BATHROOM VARIANTS

Stylish, well-designed and spacious. We place great value on elegant forms, as much storage space as possible and a pleasing atmosphere.

## OPEN BATH

**Elegant and spacious.** The open bath convinces with its well thought-out concept. The separate shower cabin is particularly spacious. The door to the washroom and toilet room also serves as a separator to the living room. This creates a particularly spacious bathroom if required. The toilet can be swivelled, thereby ensuring ample leg room.

**Layouts:** SUN | 700 LEG, LX

## COMFORT BATHROOM

**360° turn for more comfort.** On one side, the swivel wall ensures great convenience due to the spacious shower cabin. The washbasin is located on the other side of the wall. This means that you always have exactly the space you need.

**Layouts:** VAN | 550 MD, 600 MG, 650 MEG, LIVE | 650 MEG

## INTEGRATED BATHROOM

**Perfect use of space.** In the fixed bathroom, everything is in one central place and arranged so well that every angle is used perfectly. The spacious shower cabin is equipped with premium fittings and there is sufficient storage space in the cabinets for all your cosmetic products.

**Layouts:** LIVE | 700 MEG

## LEG LUXURY BATH

**Luxury bath and single beds.** Due to the well-conceived door construction and magnetic door lock, the toilet area can be separated, or indeed the whole bathroom. This creates a unique feeling that is complemented by such luxurious details as the glass-enclosed shower cabin with integrated skylight and full mirror cabinet.

**Layouts:** SUN | 900 LEG

## LX LUXURY BATH

**Luxury bath and queen-sized bed.** In combination with the queen-sized bed, you will find a wash basin and mirror cabinet at an additional wall located at the foot of the bed. This creates a special and elegant overall impression. Here as well, a premium glass shower cabin and practical storage areas ensure the highest level of comfort.

**Layouts:** SUN | 900 LX

All important accesses, connections, and drains are centrally located in the ServiceBox (further details on pages 22-23) for maximum convenience

The KNAUS STYLE cabin door has a practical waste bin on the inside and two clothes hooks

Optimal view and a pleasant light via the optional LED dipped beam

# VANI

## THE COMPACT ONE

IT IS #NUMBER 1, BECAUSE IT...

is the **lightest** vehicle in its category.

looks particularly dynamic with its **frame appearance**.

has a width of only **2.2 m** meaning it is at home even on narrow roads.

Dynamic lines and progressive design language ensure a striking appearance

Unique aluminium double floor for maximum durability

**These layouts are a really good catch.** For their trip to Scotland, Marie and Anton have chosen the 600 MG with 680 kilogram loading option for their equipment.

*Ultra-compact layout with 4 beds*

VANI 550 MD

*Roomy comfort bathroom with swivelling wall*

VANI 600 MG

VANI 650 MEG

*Comfortable single beds that extend to become a double bed*

*Shaped ABS-PMMA plastic gives the VANI series its dynamic frame appearance*

*Experience on page 13 what makes the high-strength GRP roof so special*

*Standard frame windows reduce the noise from wind, are especially safe, and also look superb*

VANI OVERVIEW

4-5 seats, 4 lights, 3,5 hookups

Layouts	3
Gross vehicle weight kg	3,500
Maximal payload capacity kg	630 - 800

For more information, visit [www.knaus.com/vani](http://www.knaus.com/vani)

**Of course, good taste is part of it.** That is true whether it is the stylish interior or the freshly caught food on the grill that Anton is preparing. Marie is pleased with both.

Practical LED touch spots for maximum convenience

USB ports as standard

The genuine wood edge on the table is part of a particularly homely atmosphere

1 VAN | 650 MEG

2 VAN | 650 MEG

**1. Excellent GRAMMER seats.** Various adjustment options and active seat ventilation mean that even long distances can be taken on with ease. And all this as standard.

**2. Rotating table.** Regardless of how much space you need, the table can flexibly adjust to your requirements.

VAN | 650 MEG

- 600 MG Galley kitchen
- 650 MEG Galley kitchen

More information regarding our kitchens can be found on pages 36 – 37.

**Succulent treats for the palate from the grill and the kitchen.** Best of all: due to the extremely stable and easy to use counter top extension there is sufficient space for loads of treats.

- 1. Spacious refrigerator.** The 145-litre refrigerator with freezer compartment provides plenty of space for your supplies.
- 2. Kitchen version 550 MD.** Of course, the kitchenette in VAN I is also fully equipped.
- 3. Robust HPL surfaces.** So that your VAN I still looks fantastic even after many journeys.

**Too comfortable for sleeping?**  
Marie really could spend the whole day in the comfortable lifting bed, buried in her books with a cup of tea.

**1. Ideally usable wardrobes.** Due to the large door they are extremely easy to access and are equipped with practical storage options as well as a garment rail.

**2. Extending single beds.** Pull out the roller slatted frame and add the upholstery. This instantly and easily creates a double bed from the single beds.

**3. Quality lifting bed.** Due to the EvoPore mattress and slatted frame, sleeping on these beds is just as good as the standard beds.

**More room for fresh ideas.** Simone and Tom feel right at home in the spacious living area. Due to the numerous windows and ambient lighting, the interior is simply joyful.

Perfect for enjoying social moments

- 1. Extendable TV.** The optionally available 24" TV is equipped with a HD Tuner. It can be retracted behind the bench while driving or when not in use.
- 2. Darkening of the driver's cabin.** Front and side windows can be shaded as standard for a restful night's sleep and more privacy.
- 3. L-shaped seating group.** Optionally, the living area can be equipped with a comfortable L-shaped seating group including a telescopic single-column lifting table. The table top can be moved in all directions and can thus be flexibly adapted to different usage variants.

The new LIVE | driver's cabin door offers numerous automotive equipment features such as ticket holder and coin tray, thereby providing a high level of comfort

Unrivalled views due to a large panorama windscreen

Optionally available GRAMMER seats provide extra seating comfort

The durable PVC flooring in yacht optic is particularly noble

You can find more information about our kitchens on [pages 36 - 37](#).

**Highest sleeping comfort.** Whether in the single beds located in the rear or in the spacious lifting bed which can be lowered especially far: Simone and Tom always sleep like babies in the LIVE I. This is ensured by the high-quality EvoPore cold foam mattresses as well as the cosy wall and ceiling coverings.

**1. Spacious wardrobes.** Because of the large door, they are extremely easy to access and are equipped with practical storage options as well as a clothes rail.

**2. Bed extension.** The single beds can optionally be converted into an even more spacious lying surface in no time at all by means of precisely fitting cushions and slatted frames.

**3. Full-fledged lifting bed.** With a slatted frame and high-quality EvoPore HRC mattress, the 195 x 150 cm lifting bed offers the best conditions for a restful night.

**BED OVERVIEW**

- 650 MEG 4-5
- 700 MEG 4-5

You can find more information about our beds on **pages 34 - 35**.

**Refreshing.** Having one's own bathroom during travelling is a true comfort. Being able to take it along wherever you go, a true luxury. In particular, when it is as well-equipped as it is here.

**1. Permanent fixed bath.** The high-quality acrylic glass shower cabin offers a lot of space to move. Thanks to numerous shelves, there are enough possibilities to store all of your cosmetic articles.

**2. Comfort bath variant.** The innovative swivel wall ensures that you always have exactly the space you need. The space saved will benefit the living room size.

## KNAUS FANSHOP

Enjoy taking a look around!

**Fancy a little shopping trip?** In our fan shop, you will find a large selection of items that make travelling even more beautiful. From high-quality women's and men's fashion and fun games to key chains: we have something for everyone.

There is lots of great KNAUS merchandise at [shop.knaus.com](http://shop.knaus.com)

Now you can also rent abroad. Discover all the rental stations at [www.rentandtravel.de](http://www.rentandtravel.de)

## RENT AND TRAVEL

You would like to buy a leisure vehicle, but wish to test in advance whether it really suits you? Then the RENT AND TRAVEL service is just right for you. **Search for your favourite layout comfortably online or in a travel agency.** Together with a **Germany-wide network of over 150 rental stations** with over 1,650 rental vehicles and more than 360 partner travel agencies, RENT AND TRAVEL supports you in your decision for the right vehicle. You can also profit from our large service portfolio, such as **route suggestions** and numerous **cooperations with camping and parking sites**. Enjoy the practical holiday test!

Bookable online at [www.rentandtravel.de](http://www.rentandtravel.de) or via our 360 partner travel agencies

# OUR WORLD OF TRAVEL

## OUR SUPPLIERS & PARTNERS

With the products of our **strong and reliable partner companies**, every KNAUS motorhome becomes still a little better. We only work with **hand-picked professionals** and jointly **develop tailor-made solutions** for our leisure vehicles and your travel happiness so that you can also rely on the **highest quality standards**.

*State-of-the-art technology: you can control & monitor many things via apps*

NEW

## STRONG PARTNERS & FEATURES

### BWT water filter

NEW

Our partner for hygienic fresh water supply. The high-performance filter system from BWT has been specially developed for the requirements of our leisure vehicles. **More information can be found from page 24.**

### VELOCATE GPS tracker

NEW

Velocate's innovative GPS tracking system ensures optimum theft protection thanks to intuitive app control with silent alarm mode and a stand-alone mileage of up to 3 months without power connection. **More information can be found on page 19.**

### PIONEER head-up display

NEW

The new head-up display ensures even greater comfort and safety while travelling. All key data, such as navigation and speed, are projected into the driver's field of vision via a transparent screen. **For more details, check out page 29.**

### PIONEER navigation system

The seamlessly integrated Pioneer NavGate EVO navigation and entertainment system can be intuitively operated. An integrated DAB+ receiver ensures noise-free radio reception, and 5,600 parking areas all over Europe are pre-saved for your trips. Three years of map updates are included, as well as quick access to the rear camera and voice control via smartphone.

### TEN HAAFT satellite systems

Enjoying TV in KNAUS vehicles is even more convenient and user-friendly thanks to the optional ten Haaft satellite systems. Depending on the model, the Oyster 60 Premium and Oyster 80 Premium systems offer clear TV reception, technical highlights such as smartphone app control and much more.

### TRUMA supply technology

Our partner TRUMA offers supply technology with maximum quality. With the intelligent Truma iNet system, you can even very conveniently control your air-conditioning and heating systems as well as your gas supply via app.

*You don't want to miss out on this world first!*

## GA ACTUATION E.HIT INTEGRATED REAR CARRIER

**Electrically extending** with a sufficiently **high load capacity** and combined with a **removable trailer hitch**, the rear carrier is extremely practical. The e.hit is ready for the road with just a few actions: two **pivoting arms extend** at the press of a button. Once the accessory frame with **folding LED tail lights** is pushed on, a connection is immediately established between the **electrics and the motorhome**.

*e.box transport boxes have a capacity of more than 300 litres*

*The trailer hitch can be easily removed*

*The optional e.carry bicycle rack can hold up to four bicycles*

NEW

## FRANKANA FREIKO

There are some things that you **simply cannot do without on the camp site**. You can rely on the KNAUS collection by our partner Frankana Freiko.

*7-step adjustment*

*4 each in the set*

*Turns the chair into a comfortable lounger*

The information on the delivery contents, measurements and weights as well as the appearance correspond to the knowledge at the time of printing (07/2019). We reserve the right to make changes on equipment, technical data, serial equipment and prices. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some of the illustrations show optional equipment that is available at an extra charge or equipment features of prototypes/studies that do not conform to the serial status and in some cases will not be available as optional equipment. Colour deviations are print-technically possible. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised dealer. The decoration shown in the catalogue is not part of the equipment supplied. Please also note the comments in the current price list, in particular on weights, payload options and tolerances. Reprinting, even in extracts, is only permitted with the prior written permission of Knaus Tabbert GmbH. We reserve the right to change content at our discretion.
