**The three highlights:**

- Young interior design
- All-electric & gas-free as standard
- Air conditioner with heating function as standard

# THE PERFECT CARAVAN FOR BEGINNERS AND SEASONAL CAMPERS.

**Easy to use and cost-effective.** The camping season is the best time of the year. And with the CaraCito you have the ideal companion! Its all-electric equipment with standard heating/air-conditioning combination is not only particularly beginner-friendly, but also ideally suited to create pleasant temperatures for you throughout the entire camping season. And all that sustainably and without time-consuming gas bottle changes! Let yourself be inspired by the new way of caravanning!

## A SIMPLE EFFICIENT SUSTAINABLE CAMPER.

The CaraCito's all-electric design makes it particularly sustainable. Its low overall height makes it more aerodynamic and the lower weight optimises fuel consumption.

The discreet but stylish exterior trim makes the CaraCito an eye-catcher. The double-glazed windows can be opened – here on the **390 QD**.

## CHOOSE WHAT YOU PREFER: ELECTRIC OR GAS.

The CaraCito is fully electric in series, but also available as a gas version. Let your WEINSBERG dealer advise you directly.

You can also find more information at [weinsberg.com/electric-concept](https://weinsberg.com/electric-concept)

**Gas usage scenario –**  
There is room for two 11 kg gas bottles in the bow storage locker.

A family consisting of a woman, a man, and a young child are sitting at a blue plastic table outside a white Weinsberg caravan. The caravan's side door is open, and a small dog is visible near the table. The scene is set in a grassy area with trees in the background under a blue sky with clouds.

## AIR-CONDITIONED FOR SEASONAL CAMPERS.

From Easter to October: Around 80% of all campers use a caravan exclusively during the camping season, i.e. from Easter to October. They attach particular importance to a good air conditioning system that can keep temperatures cool even in the hot months. In the CaraCito it is on board as standard!

A white Weinsberg CaraCito caravan is parked on a paved surface. The caravan has a sleek, modern design with a curved front and a large rear window. The brand name 'WEINSBERG' is visible on the side, and 'CaraCito' is on the rear. The license plate is 'FRG-WW 5222'. The background shows a scenic landscape with trees and a body of water under a cloudy sky.

## GAS-FREE CONSTRUCTION IN SERIES.

In the CaraCito, we do without gas system as standard - and manage your everyday camping life fully electrically. You no longer have to worry about the gas supply, safety or filling up the heavy bottles. A big plus for beginners!

The taillight carrier impresses with its striking WEINSBERG look and the side clearance lights enable safe and confident manoeuvring - here on the **470 EU**.

## ROBUST VEHICLE CONSTRUCTION.

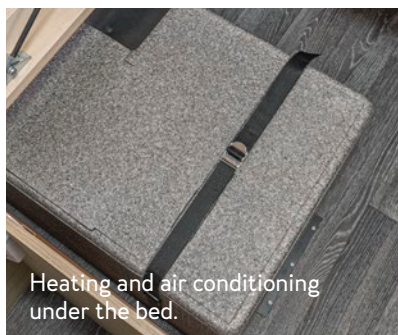

Thanks to its electrical components such as the compressor refrigerator, the CaraCito does not need ventilation grilles in the side walls. This makes it better insulated and less sensitive to moisture, dirt or dust. The vehicle's centre of gravity is optimised by the air conditioning system installed in the bench box and the roof is particularly resistant.

## TRAVEL FUN WITH MANY ADVANTAGES.

### POWERFUL ON EVERY DAY OF YOUR HOLIDAY

Thanks to its modern design and electrical equipment, the CaraCito is particularly efficient in operation. The compressor refrigerator cools quickly even at high temperatures. The outside temperature has no influence on the cooling capacity. If it is colder outside, the air-conditioning/heating combination with up to 3,000 watts of heating power quickly provides pleasant warmth.

Heating and air conditioning under the bed.

**Sophisticated detail.** The optional service hatch is easy to reach. It also gives you particularly convenient access to the bow garage.

From quiet air conditioning to optimised use of space: in the CaraCito you experience the many advantages of electric equipment. Gone are the gas bottle changes and worries about leaks. Instead, there is more space, better handling and a particularly pleasant interior climate.

**MORE SAFETY AND COMFORT.**

**Use scenario Electric –** Easy access and plenty of storage space in the bow storage locker.

**FULLY ELECTRIC EQUIPMENT.**

Whether induction hob, fridge or air conditioner: in the CaraCito you can look forward to fully electric standard equipment at an ingenious price-performance ratio. The individual appliances work as easily as in your own home and some can even be activated by remote control.

Air conditioning and heating system can be easily controlled with the remote control.

There's room for everyone in the dinette. For four people, for example – here in the **470 QDK**.

## DINETTE. THE COSY CENTRE.

**Simply ingenious.** Reduced design? Yes, please. Reduced comfort? Certainly not! The CaraCito is also in a class of its own when it comes to variety and choice. Its interior is oriented towards the modern living world. Simple, elegant and straightforward, with handleless push-to-open furniture flaps.

#team  
WEINBERG

**Well-being made easy.** As we all know, it's the seemingly small things that make a big difference. For us, being able to control the room climate by remote control is one of them. So we don't have to get up when we've made ourselves comfortable in the dinette.

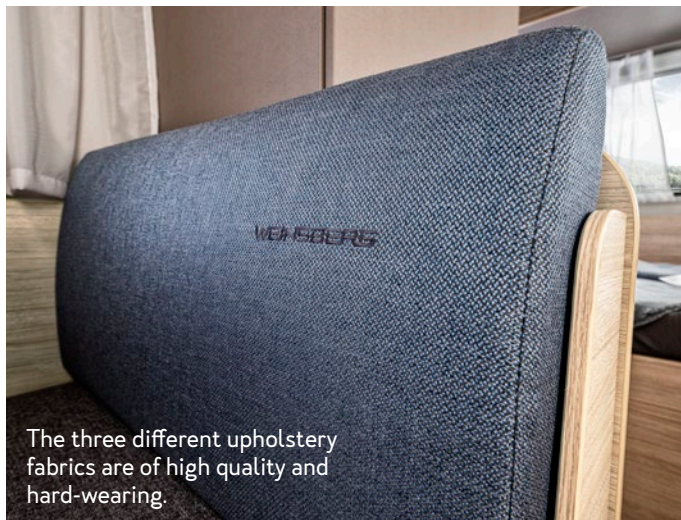

Handleless push-to-open furniture flaps.

Worktop with Terrazzo decor.

The three different upholstery fabrics are of high quality and hard-wearing.

## YOUNG LIVING. SIMPLE DESIGN MEETS COMFORT.

### ROUND SEATING GROUP. A RELAXED GET-TOGETHER

**450 FU** – The round seating group offers comfort, the ceiling cabinets practical storage space.

**The best ingredients for the travel kitchen.** How does young living show itself in the kitchen of a caravan? The CaraCito offers great flexibility, because it has just about everything. Whether it's a large or small cooking area, here you have the full choice. The induction hob offers the ease of use that you know from your home.

#team  
WEINSBERG

**Delicious camping kitchen.** The theme of "ease of use" also runs through the cooking area. The induction cooker is similar to ours at home: it's fast, practical and easy to clean. We are happy about the comfort and Phil about his favourite dish.

## INDUCTION HOB. COOKING LIKE AT HOME.

The induction hobs are easy to use and easy to clean. The worktop offers plenty of space for cutting and preparing.

Those who opt for the gas package cook on a classic 2-burner gas cooker.

#team

#team  
WEINSBERG

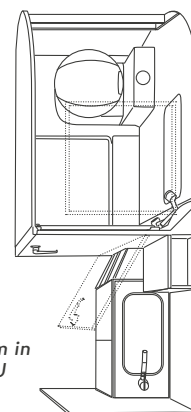

**As if by magic.** Phil is totally fascinated by the folding washbasin that can be stored above the toilet. We understand that, because we are just as excited about this practical function.

## INTELLIGENT DEVICES, MAXIMUM COMFORT.

### BLUWATER\*.

*Water filter system.*

Hygienically perfect water at every destination - the new bluuwater water filter removes germs, bacteria and minute particles almost completely (99.999 %) from the pipe system of all Knaus Tabbert vehicles (in series). The replaceable filter cartridge with highly efficient ultrafiltration membrane is mounted vertically or horizontally between the water tank and the pipe system. It has a filter capacity of up to 8,000 litres - and thanks to a Timestrip indicator in the vehicle, the remaining usage time can be checked at any time. It is advisable to replace the bluuwater cartridge after about six months. Thanks to the click-and-ready quick coupling system, it can be replaced easily and drip-proof.

on the move.*

Watch what you want, where you want. The future of television is now moving into your WEINSBERG. With the optional TV package, only Smart TVs are installed. ## SILWYREADY\*.

*For relaxed travelling.*

**silwy**  
MAGNETIC SYSTEM

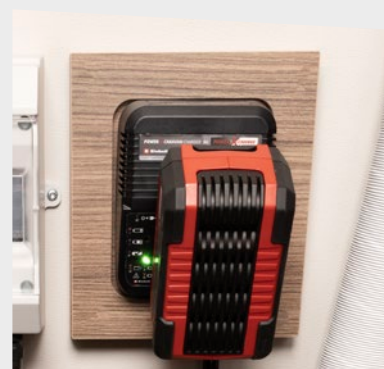

The silwy MAGNETIC SYSTEM promises no more slipping, falling or rattling glasses. With the ingenious magnetic system, the magnetic glasses adhere to metallic nano-pads or metallic accessories specially developed for silwy and thus offer absolutely safe and relaxed travelling. From now on all WEINSBERG caravans are silwyREADY. The silwyREADY package includes a small round, removable silwyPad with a magnetic pin, which sticks to a kitchen wall unit with a welcome sign. Later, the pad can be placed anywhere in the vehicle to serve as a coat or towel hook. In one of the kitchen ceiling cupboards you will find a silwy metal mat with leather-look surface glued in. Thanks to the magnets in the base, silwy glasses placed there are vibration-proof and stable.

## EINHELL ONE NIGHT STAND\*.

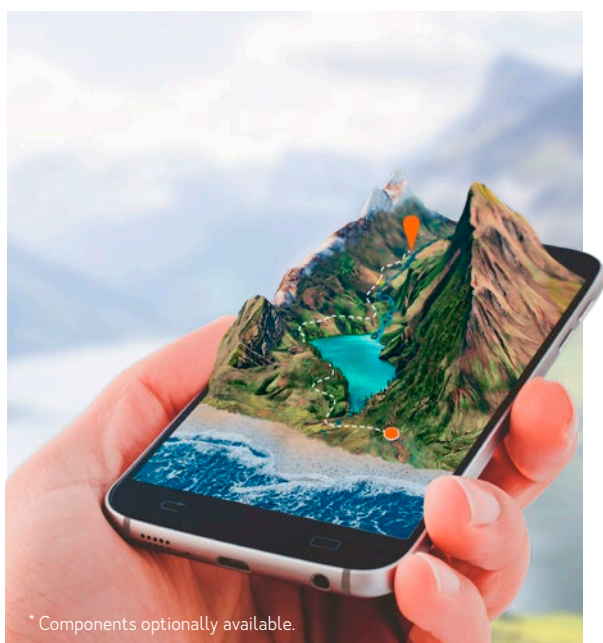

*One night electrically self-sufficient.*

The optional One Night Stand package for the CaraCito, with battery docking station "Caravan Charger" and high-performance exchangeable battery "Power X-Change", provides energy to operate, for example, the light, the water pump and the refrigerator electrically self-sufficiently. The battery is charged during the journey via the supply line of the towing vehicle and can be topped up with additional batteries. The energy gained in this way is stored in a Power X-Change battery from Einhell. This can also be used as a battery for over 200 available Einhell devices.

Please note that the possible usage time of a battery per charging cycle depends on various factors, such as the number and power consumption of the operated end users, the age of the battery, etc., and is limited by these. Therefore, a minimum usage time per charging cycle cannot be guaranteed.
